

Low Hall Nursery School and Children's Centre

Equalities Objectives

A key part of our mission is to raise the life chances of the most vulnerable and to narrow the gap. We have decided that the following three objectives are priorities:

- To ensure that the positive ethos of equality and respect of the Children's centre and Nursery School is embedded further we will develop a Parent's Charter which will set out how we expect all adults to behave on the premises, and what will happen if anyone does not abide by this.
- To develop our learning about the new communities in the local area and increase the involvement of these community users in the Children's centre and Nursery School by:
 - Involving current staff from less well represented communities in a wider range of activities such interpreting messages from parents
 - Promoting a wide range of cultural backgrounds at an annual International Day
 - Recruiting volunteers from a wider range of communities which represent people living in the local area
 - Ensuring that food on offer is more culturally diverse
- To increase the involvement of local women and their under 5s in sport, for example, developing Family Football sessions to include women and their children
